Impeccable Artistry

> Serving the Orlando area for 15 years and specializing in breast augmentations, breast lifts and reductions, abdominoplasty (tummy tuck), liposuction, facelifts, and eyelid surgery, Dr. Jon Paul Trevisani's groundbreaking work has led him to be one of Orlando's leading and most well known plastic surgeons. His development in cosmetic surgery has awarded him with high regards from his former patients and a reputation that is known throughout the city.

Dr. Trevisani, or "Dr. Jon," is the founder and Medical Director of the Aesthetic Surgery Centre in Maitland, which happens to be one of the leading breast augmentation and plastic surgery centers in the state. The Aesthetic Surgery Centre has an in-office surgical suite certified by the American Association for Accreditation of Ambulatory Surgery, where Dr. Jon performs 600 major cases a year. Dr. Jon graduated Phi Beta Kappa from the University of Nebraska, Lincoln. He received his medical degree from the University of Nebraska Medical School in Omaha and continued his surgical training at the University of Kansas Medical Center in Kansas City. Spending five years there, he completed general surgery training. Following his training at the Kansas Medical Center, he completed his residency in plastic surgery at the University of Rochester in Rochester, New York. Dr. Jon is a member of Alpha Omega Alpha, which is the medical honor society that comprises the top 10 percent of medical students. Coming from a family active in the medical field, becoming a doctor was a natural career choice. Dr. Jon has three brothers, an uncle, and several cousins who are also physicians specializing in various areas of the medical field such as podiatry and oral surgery.

Establishing the Aesthetic Surgery Centre in 1997, Dr. Jon holds a high reputa-

tion among his patients as being Central Florida's premier, "options expert." His approachable, personable, and friendly personality has proven to establish a personal connection with each patient. Dr. Jon takes the time to carefully discuss all options for a desired procedure, whether it is a breast augmentation, breast lift, breast reduction, liposuction, abdominoplasty, facelift, or eyelid surgery. He works to establish a comfortable, one-on-one relationship with every patient. Not only does Dr. Jon perform surgical procedures, he also does non-surgical treatments such as Botox injections.

Dr. Jon's expertise accomplishes exactly what he wants for his patients by making them feel good about themselves. He believes that deciding where to undergo plastic surgery is one of the most important choices one will make in the cosmetic surgery process. Making people feel good about themselves, he believes, is what it is all about, and achieving this standard is his passion.

Aside from being a well-known and highly successful surgeon, Dr. Jon enjoys his extracurricular hobbies such as sporting events and playing the piano. He is an accomplished pianist who enjoys the works of Frederic Chopin. Dr. Jon has been a resident of Central Florida since 1995 with his wife and two children.<
